

EHS Rep Orientation – Level I Inspection of the EHS Labs

Instructions: Conduct a Level I Inspection at two stations. The group should agree on the finding and one person record the findings on the check list. We will go over the findings in a wrap-up after the inspection.

Logistics: There will be 4 stations set-up. Each group will spend **10 minutes** at each of **two** stations. Below is the order of the stations for your group and the Level 1 questions that go with that station.

Group	First Station	Second Station
1	1 – Required SAA questions 1-9	2 – Required General 1-9 and Periodic
2	2 – Required General 1-9 and Periodic	1 – Required SAA questions 1-9
3	3 – Required SAA questions 1-9	4 – Required General 1-9 and Periodic
4	4 – Required General 1-9 and Periodic	3 – Required SAA questions 1-9

Take your **Level I check list and guidance document** with you. One person in the group will be the recorder for a station (you will be given a **nonpermanent marker** and **safety glasses**).

Level II review to follow

Here is a map of station locations.
