

PART A: MIT Radioactive Material Authorization

SECTION I. General Information				
Department/DLC:				
Principal Investigator	Last name, First name	Kerberos ID	Phone:	Bldg./Room#:
Lab Contact	Last name, First name	Kerberos ID	Phone:	Room#:
EHS Representative	Last name, First name	Kerberos ID	Phone:	Room#:
SECTION II. Application for principal investigator of a radioactive material authorization				
Complete "Application for Principal Investigator of a Radioactive Material Authorization" for new PI's <input type="checkbox"/> Attached <input type="checkbox"/> Not attached				
SECTION II. Rooms/Spaces to be Registered As Radioactive Material Laboratories				
Building/Rooms: If Yes, Please attach RAM- Shared Space Registration Form				
SECTION III. Radioactive Material Possession				
Please list all Radioactive material to be procured and used under this Authorization in the Part B Radioactive Material form . <input type="checkbox"/> Attached <input type="checkbox"/> Not attached				
SECTION IV. Principal Procedures				
Principal Procedures are required for each type of radioactive material use. Multiple procedures for each type of radioactive material may be used. Please complete a separate Principal Procedure for each process of radioactive material use. The Part C Principal Procedure template can be downloaded to be modified for each process.				
SECTION V. Authorized Personnel				
All personnel authorized to use radioactive materials under this Authorization must complete the following before commencing work with radioactivity: <ul style="list-style-type: none"> • Radiation Safety Training (EHS00301c/w) • Radiation Worker Registration Form (RP-50) 				
SECTION VI. Certification and Signatures				
I acknowledge the following: <ol style="list-style-type: none"> a) My laboratory will comply with the requirements of the MIT Radiation Safety Program. b) Maintain an up-to-date listing of Radioactive Material Rooms and Users c) Provide experiment-specific training to radiation workers d) Maintain written inventory of material from all sources (source storage, waste, etc) e) Inform RPP of new Radioactive material work f) Ensure personnel wear appropriate PPE and when necessary, monitoring devices g) Ensure the security and proper disposition of all radioactive material under this authorization 				
Person completing this form (Print Last, First Name)				Date
Principal Investigator (Print Last, First Name)	Signature		Date
